192 Listening and Speaking Final Instructions

Time: the 18th week

Requirements:

1. Every student needs to prepare an individual presentation with slides.
2. The topic must be chosen from the following options.
3. Each presentation should last for 3-5 minutes.
4. Please check the speaking rubrics and key points in the textbook to prepare your presentation.
5. Please do not read your script or slides word by word. You can refer to the notes occasionally.

Speaking Rubrics Total Score: 100

Content and Organization (30)

1. Be sure to include all the points in the checklist for each topic.
2. Present clear opinions and arguments with sufficient details, examples, and reasons.
3. Have a clear structure and use appropriate signposting language to guide your audience.

Pronunciation and Intonation (30)

1. Make your speech clear and easy to understand throughout.
2. Maintain a well-paced flow.
3. Use a range of pronunciation and intonation features with precision and subtlety, e.g., correct consonant clusters, certain and uncertain intonation, intonation in tag questions, and pauses in prepared speech.

Language Use (30)

1. Use sufficient and accurate topic-related words.
2. Use the grammar required in the checklist correctly.
3. speak without noticeable errors in word choice, word form, sentence structure, tense, etc.

Visual Aids (10)

1. Use clear bullet points on the slides to help the audience understand the presentation better.
2. Do not put too many words on the slides.

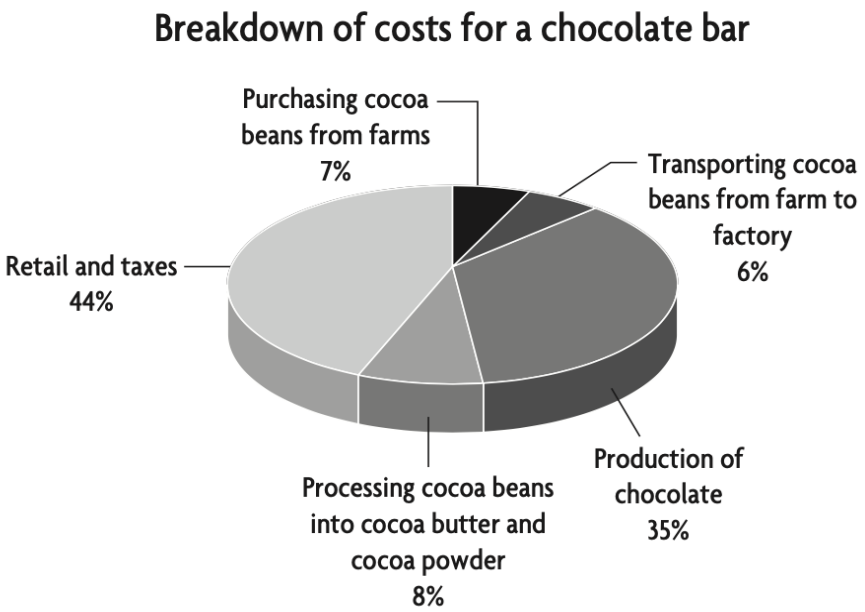
******Grade Deduction***

1. *Speak for less than 3 mins. (-20)*
2. *Read the script or slides word by word. (-20)*

Topic List

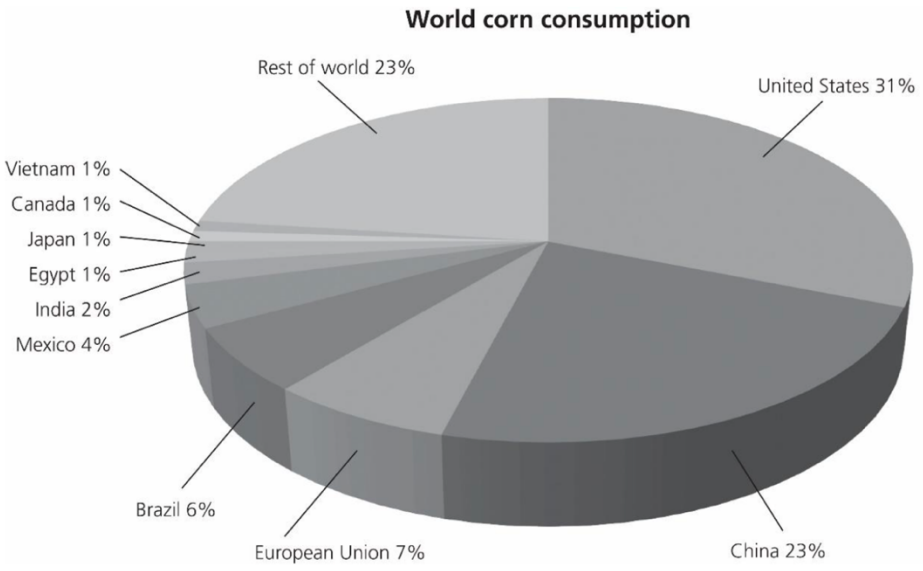
Topic 1

You are going to give a presentation about the costs related to producing and selling a chocolate bar. Look at the pie chart. Think about possible causes and effects of the figures for these segments.



Topic 2

You are going to give a presentation about the quantity of corn people consume in different countries. Look at the pie chart. Think about which countries consume the most, and which consume the least. Look for possible trends and explain them in your presentation.



Topic 3

You have been asked to be on a committee to decide which student should be granted a merit-based scholarship. Look at the qualifications of two candidates who are applying for the scholarship. Your job is to consider which candidate should be awarded the scholarship. Decide on the important points and support them with reasons.

Candidate A

• has Maths, Chemistry and Biology A-levels
• coaches a local children's football team
• is interested in taking a part-time online course in Physics
• has offered to volunteer at the university to partially offset cost of scholarship
• has not yet written an application essay

Candidate B

• has Art, Geography and Psychology A-levels
• volunteers every weekend at a recycling plant
• is interested in taking a full-time degree in Psychology
• has no plan to offset cost of scholarship
• has completed an application essay and achieved a high score

Topic 4

You are going to participate in a debate on the following statement: Human trials for new medicines should be banned due to the unknown consequences and side effects on test subjects.

Choose a position (A or B)

Student A: You are a researcher at a medical facility. You agree with the above statement.
Student B: You are an executive at a pharmaceutical company. You disagree with the above statement.

Research the topic as necessary, then prepare and practise an opening statement for the debate. Think about your opponent's views and what he or she might say in response to your statement. How could you counter their argument? Think about the persuasive language you might use.

Topic 5

Give a presentation about the problem of people wasting water.

- Think about what kind of background information to include in your introduction to help the audience to understand the problem.
- Consider the effect that using too much water has on the environment.
- Provide solutions and explain the importance of addressing this problem.
- Make notes using the table below to help you prepare for the presentation.

problems	Suggested solutions	Importance of addressing the problems

Checklist for Each Topic

Topic 1&2	1. Set the context in the introduction. 2. Describe the pie chart. 3. Support your view with data. 4. Draw a conclusion supported by the pie chart. 5. Use modals of present and past probability
Topic 3	1. Give your opinion on criteria and priorities. 2. Use priorities to evaluate options. 3. Use future continuous. 4. State preferences with “would”.
Topic 4	1. State and support your position clearly. 2. Ask challenging questions. 3. Give personal examples. 4. Address the other group's argument. 5. Use persuasive arguments. 6. Use conditionals.
Topic 5	1. Give background information. 2. Explain the problem and possible solutions. 3. Stress words for emphasis. 4. Use past perfect tense. 5. Use multi-word prepositions.
